TWIST STOPPER the original!

advantages

-  all yarn profiles
-  all yarn counts
-  extreme low filament breaks
-  very rigid

due to:

-  star wheel made of advanced BROELL-ceramics
-  reduced mass inertia
-  stationary protection shield
-  sturdy design
-  easy handling and cleaning
-  easy replacing of ball bearing
-  high efficiency ball bearing (> 20.000 hrs)
-  matching all adapters

the way to stop twist

if the yarn can decide - it will be a BROELL Twist Stop
